LANGUAGES

- Swedish (Fluent)
- English (Proficient)
- Arabic (Native)

EDUCATION

Bachelor's Degree in Informatics
08/2020 - 06/2023

Web Development Program | Karlstad University

During my studies at Karlstad University, I acquired extensive knowledge in both frontend and backend development, with a particular focus on JavaScript and Asp.Net. I have experience in implementing and maintaining web- based systems, as well as working in an agile environment to ensure high- quality project outcomes.

Higher Vocational Diploma
09/2012 - 08/2014

Computer science | Damascus University

During my studies in Computer science at Damascus University, I acquired knowledge in programming, databases, digital communication, systems development, and software development.
The education has been evaluated by the Swedish Council for Higher Education (UHR) and is equivalent to an advanced higher vocational diploma in Sweden.

WORK EXPERIENCE

Freelancer
01/2024 – Nuvarande (Remote)

Developer

- Develop scalable and secure backend solutions in ASP.NET with integrated database management. The goal is to deliver optimal performance and robust security in every project.
- Develop responsive, tailor-made frontend solutions with HTML, CSS, and JavaScript, designed to match the client's specific requirements and needs precisely.
- Work independently and in teams, utilizing agile methods and clear communication to streamline and optimize the project workflow.

Soleil It Sweden AB
01/2023 – 03/2023 Karlstad, Sverige

Trainee

- Developed and implemented advanced web applications using Sitevision and JavaScript, which enhanced my technical skills and problem-solving abilities.
- Collaborated with various teams to ensure seamless integration and optimization of development projects.
- Deepened expertise in modern web development and gained valuable insights that contributed to professional growth.

Cleverex Bemanning AB
12/2020 – 05/2023 Karlstad, Sverige

Employee

- Worked alongside studies and collaborated with a client, gaining experience in adapting to different work environments and tasks.
- Enhanced ability to collaborate effectively within teams.
- Approached challenges with flexibility and professionalism.

Grums Kommun
03/2017 – 05/2017 Karlstad, Sverige

Employee

- During my time at Allas Café, part of Grums Municipality, I was responsible for cash handling, cooking, serving, purchasing, and team leadership.
- I managed multiple tasks simultaneously while maintaining high quality.
- My problem-solving skills and ability to work effectively in a team helped me achieve common goals.

Karlstad Universitet
03/2017 – 05/2017 Karlstad, Sverige

Praktikant

- Assisted with inventory management, administration, and updating internal information systems in the Department of Computer Science.
- Organized and maintained computer equipment, ensuring efficient storage and accessibility. Worked independently and collaboratively to support departmental operations.

Syriens Privata Universitet
09/2014 – 06/2015 Damaskus, Syrien

IT-technician

- Planned, implemented, and maintained various IT systems to ensure optimal performance.
- Delivered high-quality technical support and assistance to users.
- Ensured efficient system functionality while professionally addressing user needs and resolving issues.

VOLUNTEER WORK

Volunteer with the relief team. Assisted people fleeing conflict zones, distributed food at refugee shelters, and recruited new volunteers with the right competencies.
